SPECIALIZED CLINICAL ENCOUNTER & RESPIRATORY CONSULTATION SLIP (OPD-PULM)

Dr. Samarpit Biswal, MD
Consultant Physician (Internal Medicine & Paediatrics)
Reg. No: **OMC-2020-54190** (Odisha Medical Council)
AIIMS Bhubaneswar (Apex Trauma Centre)

Date: 05 November 2026
Time: Urgent Evening Review
Clinical Priority: **URGENT REVIEW**
Prescription ID: **RX-RESP-881**

Patient: Citizen Registered Encounter	**Age/Sex:** 16 Y / Male	**Category:** Urgent Walk-in	**Ref: PT-RESP-881**
Blood Pressure: 118/76 mmHg	**Pulse Rate:** 90 bpm	**Resp. Rate:** 21 /min	**SpO_2:** 96% (Room Air)

CHIEF COMPLAINTS & CLINICAL ASSESSMENT:

- **Presenting Symptoms:** Severe paroxysmal coughing for 4 days, night-time coughing bouts, mild expiratory wheeze, low-grade fever (100.4°F).
- **Chest Auscultation:** Bilateral end-expiratory polyphonic rhonchi, prolonged expiratory phase. No localized crackles or bronchial breathing.
- **Throat Examination:** Mild posterior pharyngeal erythema, no follicular tonsillitis, cervical lymph nodes soft and non-tender.
- **Provisional Diagnosis: Acute Hyper-Reactive Airway Disease / Tracheobronchitis with Bronchospasm**; Rule out atypical bacterial superinfection.

DIAGNOSTIC INVESTIGATIONS ORDERED:

1. **Complete Blood Count (CBC) & Absolute Eosinophil Count (AEC):** Rule out allergic bronchospasm vs bacterial leukocytosis.
2. **Chest X-Ray (PA View):** Check bronchial wall thickening, rule out focal pneumonic consolidation.
3. **SpO_2 Pulse Oximetry Monitoring:** Check room air oxygen saturation every 6 hours; report if $< 94\%$.

Rx

Affordable PMBJP Jan Aushadhi Formulations Specified

#	Prescribed Formulation	Strength	Timings	Instructions & Duration
1	**Levosalbutamol + Ipratropium** *(Duolin Inhaler MDI + Spacer)*	50/20 mcg	**TID / SOS** (8am/2pm/9pm)	2 puffs 3 times daily via spacer. Relieves airway bronchospasm × 5 Days.
2	**Tab. Amoxicillin + Clavulanic Acid** *(PMBJP Generic Formulation)*	625 mg	**BD** (Post-meals)	1 tablet twice daily after meals for bacterial coverage × 5 Days.
3	**Syp. Ambroxol + Levocetirizine** *(Mucolytic Expectorant & Antihistamine)*	100 ml	**BD** (Morning & Night)	10 ml twice daily with warm water. Thins secretions × 5 Days.
4	**Tab. Paracetamol** *(Antipyretic Analgesic)*	500 mg	**SOS** (Post-food)	1 tablet only if fever > 100°F or body ache persists (max 3/day).

[CRITICAL RED FLAGS – VISIT AIIMS APEX TRAUMA CENTRE / ER IMMEDIATELY]:

- If you experience **severe breathing difficulty**, inability to speak in full sentences, blueness around lips/fingertips, or SpO_2 drops below 93%, visit AIIMS ER immediately.
- Stay hydrated with warm fluids. Avoid cold drinks, exposure to dust, and smoke fumes.
